

TAKE IT EASY WITH  **EMBLEM**[®]

EASY LAMINATING:

EMBLEM EASYLAM junior is a large format cold laminator for easy laminating and sealing of media up to 1.296 mm material width. The rubber pressure rolls are height adjustable, and accept material up to 30 mm thickness. This allows for a great variety of different material to be processed.

On account of its ergonomic design and simple technical solution, the **EMBLEM EASYLAM junior** is the answer to professional and cost saving realisation of graphics-montage, sealing and applying of laminating film.

It is also very convenient in the professional handling of application-papers and -films.

EMBLEM EASYLAM junior, along with the corresponding and optimised **EMBLEM** cold-laminating films, is a reliable professional sealing system. Due to its universality and cost efficiency it is the perfect laminator for the small business and the professional studio, when small numbers of pieces are produced (advertising studios, printing offices, copy centres, etc.).

SPECIFICATIONS
