## MagicArt Bundle RIP S/W

KoreaSoft Corp. is one of the leading manufacturers of Rip S/W which are widely used in Signage & Advertisement Industry. We have developed a professional 'MagicArt' Bundle RIP S/W for NiceJet series and provide 'MagicArt' RIP S/W to NiceJet users free of charge. The 'MagicArt' enables NiceJet users to express more accurate & vivid color by use of Ink Density Adjustment Function for C,M,Y,K,Lc,Lm as well as ICM profiles.

## NiceJet Ink

NiceJet Special Ink made of Mild Solvent Dye Basis has less head clogging problem in a comparison to other similar types of inks. NiceJet Special Ink enables the customers to express remarkable color reproduction and more vivid color as well.

- No. of Color : 6-color (C,M,Y,K,Lc,Lm)
- Package : 100ml / 1000ml

## NiceJet Cleaner

The usage for NiceJet Special Cleaner is to purge residual ink inside of head nozzle to prevent unexpected head clogging. NiceJet Special Cleaner does not give any damage on print head and less harmful to human body as well.

- Package : 500ml, 1000ml

## NiceJet Pre-Coat

NiceJet Pre-Coat has been specially developed for the customer's convenience with no classification of material type as well as coat type( I,II). Special features of NiceJet Pre-Coat by use of resins & additives includes quick drying & high durability against scratches.

- Type A (NJ-4130) : 420ml / Spray Lacquer  
Acryl, Foam Board, Wood, Metal, Crystal, Plastic, Canvas, Leather, Paper, etc
- Type B (NJ-4141) : 1000ml / Liquid in Bottle  
(Use Air Gun with Compressor, Brush, Roller)  
Acryl, Foam Board, Wood, Metal, Crystal, Plastic, Canvas, Leather, Paper, etc

# Application

## ■ Digital Printing Shop
